

## Park Quest 2017

Get in tune with your senses! Most animals have some senses that are more in tune than others. Eagles are known for having remarkable eyesight. Deer have the ability to rotate their ears, making their sense of hear-ing remarkable. Vultures can smell carrion from great distances. Catfish have their “whiskers” or barbels that help them feel; they are also covered in tiny hairs instead of scales, so are able to feel vibrations and movement. Each of these animals has one sense that it is well known for. So which is your best sense?

Within your team, divide up the cards in the packet. Maybe you have one team member who has to touch everything? Give them the “I feel with my catfish whiskers” card. If you have a member who is always the first to spot something cool, give them the “I spy with my eagle eye” card. Quest teams with more than four members will have to work with a partner. Teams with less will have to double up. The aim of this quest is to hike the Red Trail from the parking lot to the beach and back, spying, hearing, smelling, and feeling as you go. Bring four completed cards and superlatives sheet to the gate house to “taste” victory and receive your stamp.

Please return entire packet including washable markers for the next team. If the gatehouse is unmanned, call a ranger (443) 975-4360 and they will assist you.

## I SPY WITH MY EAGLE EYE...

- ⊗ 1. A mushroom growing on the forest floor.
- ⊗ 2. An osprey diving for fish in the Chesapeake bay
- ⊗ 3. A piece of Maryland's state fossil “Ecphora”

- ⊗ 4. Bright red berries on a holly tree
- ⊗ 5. Butterflies flying around the open areas
- ⊗ 6. Wood duck boxes around the wetlands
- ⊗ 7. People searching for fossils on the beach
- ⊗ 8. Turtles basking in the sun on a log
- ⊗ 9. Deer tracks in the mud

- ⊗ 10. Clouds that look like fluffy cotton

To complete this card, check at least 13/19 of the items listed above.

- ⊗ 11. A slithering snake
- ⊗ 12. Maple seeds that spin like helicopter wings
- ⊗ 13. A dog playing fetch in the water
- ⊗ 14. People fishing in the pond
- ⊗ 15. A beaver lodge in the middle of the wetlands
- ⊗ 16. Ancient scallop shells called “Chesapecten”
- ⊗ 17. Rusted pieces of bog iron (picture)
- ⊗ 18. The cove point lighthouse
- ⊗ 19. Towering cliff arching over the bay
